Aside contents formatted as a to meet assessment requirements.

The Commonwealth of Virginia

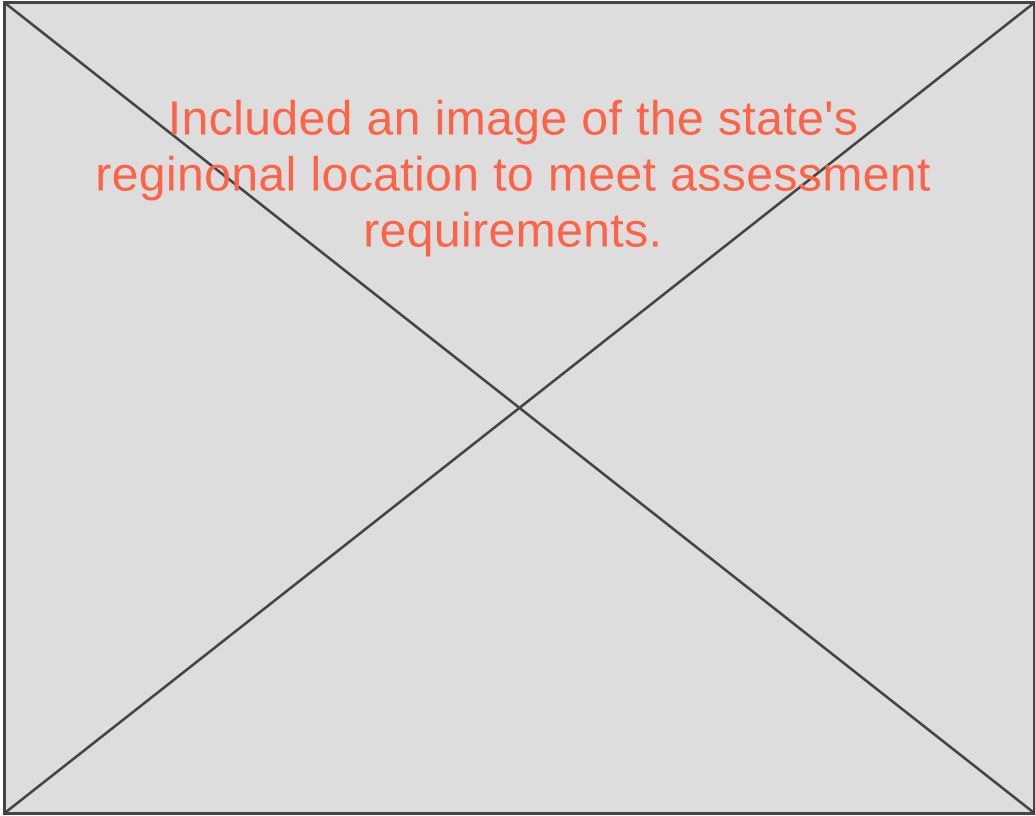

<h1> header

Used alternate color that spans page separate from banner. Final results fill out page better and add color variance.

[CityName]

Originally a . Converted to <table> to meet assessment requirements. The datasets presented in a table format are also more digestable and aesthetically pleasing. Information in the table was selected to meet assessment requirements.

The from the original wireframe was removed as datasets on top regional occupations weren't readily available, and not required. requirements were fulfilled in the contact.html
